RAPID KL REVISES TRAIN AND BUS FREQUENCIES FOR PHASE 2

KUALA LUMPUR, 9 SEPTEMBER 2021 – Rapid KL will be increasing its train and bus frequencies in anticipation of higher passenger volume following the Government’s new ruling on the National Recovery Plan (NRP) for Phase 2 covering Kuala Lumpur, Selangor and Putrajaya beginning tomorrow, 10 September 2021.

With the new timetable, passengers could expect shorter waiting periods for the following services:

NO	LINE	WEEKDAY		WEEKEND
		Morning and Afternoon Peak (7 am to 9 am) (5 pm to 7 pm)	Non-Peak (9 am to 5 pm) (7 pm to 11 pm)	6 am to 11 pm
1.	LRT Kelana Jaya	4 minutes	11 minutes	15 minutes
2.	LRT Ampang/Sri Petaling	4 minutes (CBD) 8 minutes (Non CBD)	7 minutes (CBD) 14 minutes (Non CBD)	7 minutes (CBD) 14 minutes (Non CBD)
3.	MRT Kajang	5 minutes	12 minutes	15 minutes
4.	KL Monorail	10 minutes	15 minutes	15 minutes

Passengers using the LRT Kelana Jaya Line and LRT Ampang/Sri Petaling Line could expect train services at four (4) minute intervals during the weekday morning and afternoon peak hours; five (5) minute intervals for MRT Kajang Line and ten (10) minute intervals for Monorail.

In a statement issued today, Rapid KL said that adjustment is also made to twenty-three (23) bus trunk routes. It will closely monitor the increase in ridership and add more trains and buses into service to cater to passengers' needs.

“Rapid KL fully supports the Government decision to move Kuala Lumpur, Selangor and Putrajaya to Phase 2 of the NRP. We strongly recommend our passengers to follow Rapid KL’s social media platforms or download the PULSE journey planner app to enable them to plan their journeys efficiently,” the statement said.

Rapid KL shared that 98% of its staff have received their vaccinations and a 100% vaccination rate is targeted to be achieved by mid-September 2021. This could be achieved thanks to the set-up of two PPVIN centres in Putra Heights LRT Station and Rapid Bus Complex in Cheras Selatan.

“Rapid KL has also introduced additional Covid-19 prevention measures such as requiring all our frontline staff to wear double masks when on duty and putting screens in our buses to minimise contact with Bus Captains. All our trains and buses are sanitised at their depots before and after entering service; while the stations and common areas such as escalator railings and washrooms are cleaned and sanitised frequently,” it added.

Passengers are required to observe all SOPs to ensure a safe and pleasant travel which include wearing a face mask, checking in and out using MySejahtera app or using the logbook provided at all stations and to practice physical distancing; while hand sanitisers are provided at the Customer Service Counter at all times.
